PROFILE

Full stack JavaScript developer with a Bachelor's-level degree (RNCP level 6), strongest on the frontend with React, Next.js and TypeScript, and experienced across Node.js, Express, GraphQL/Apollo and MongoDB. Built a service sales platform with secure online payment integration and an internal dashboard for bookings, payments and client accounts, and shipped features for a production React Native app. Works fluently in French and English (C1, TOEIC 980/990).

SKILLS

Frontend: React (React.js), Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Styled Components, jQuery, Bootstrap, responsive design

Backend & APIs: Node.js, Express, GraphQL, Apollo, PHP, API integration

Databases: MongoDB, SQL

Mobile: React Native, cross-platform mobile development (iOS, Android)

CMS & integrations: WordPress, Google Maps API, Axonaut API (CRM), secure online payment integration

Practices: UI/UX design, component libraries / UI kits, open-source contribution, internal tooling and task automation

PROFESSIONAL EXPERIENCE

Web and Mobile Developer (Apprenticeship) — Tonight Pass, France

September 2022 – August 2023 · Work-study: 2 weeks in company / 1 week at school

- Developed features for the Tonight Pass mobile application using React Native and TypeScript.
- Designed user-friendly interfaces that improved navigation and overall user experience.
- Contributed reusable components to Kitchen, the company's open-source UI kit.
- Built web interfaces with Next.js and Styled Components alongside the mobile app.

Stack: React Native, Next.js, TypeScript, Styled Components

Web Developer (Internship, then Apprenticeship) — Expat Facilities, France

August 2021 – August 2022 · 2-month internship, then work-study (2 weeks in company / 1 week at school)

- Developed the company's showcase website and service sales platform end to end with Next.js, TypeScript, Node.js and MongoDB.
- Integrated secure online payments into the sales platform.
- Built an admin dashboard for the team to manage bookings and payments, with client account access.
- Built the API layer with Node.js, Express, GraphQL and Apollo on a MongoDB database.

Stack: Next.js, TypeScript, Styled Components, MongoDB, Apollo, GraphQL, Express, Node.js

Web Developer (Internship) — Rouen Informatique, France

April 2021 – June 2021 · 2-month internship

- Developed internal tools connected to the company CRM to simplify and automate recurring tasks.
- Developed and shipped new features on the company website.
- Integrated the Google Maps API and Axonaut API into internal tools.

Stack: HTML, CSS, JavaScript, PHP, SQL, jQuery, Bootstrap, WordPress, Google Maps API, Axonaut API
